DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chris Harris on April 13, 2005.

In Figure 8, element 58 is amended to be "Rectangular to Polar Converter" and element 64 is amended to be "Polar to Rectangular Converter".

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
 - a. Regarding claims 1-9, prior art fails to show a phase locked loop that includes a block decoder which decodes a sequence of baseband complex samples and generates partial decoder values and decoded data, and a phase error generation circuit that receives those values from the block decoder and generates feedback phase error terms.
 - b. Regarding claims 10-21, prior art fails to show a receiver containing a phase locked loop that includes a block decoder which decodes converted

rectangular vector pairs of phase stabilized observables at a decode rate to generate decoded data and a phase error estimate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jia W. Lu whose telephone number is 571-272-6042. The examiner can normally be reached on Mon- Fri, 9:30AM-5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on (571)272-3056. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
